

PRESIDENT'S LETTER

October 2019

Now that it's September our League work is in full swing! Leagues across Colorado will be educating and registering voters and holding candidate forums and issue events. We

invite you to check out our website www.lwvcolorado.org to learn what LWVCO is working on, learn where a League is in your area, become a member, and participate in their events to contribute to our democracy. Local Leagues are doing great work!

By the time you read this letter we will have completed our Making Democracy Work (formerly League Day) conference. For the first time in our history we have filmed the educational sessions and will be posting those on our YouTube Channel, League of Women Voters of Colorado. If you were unable to come or simply want to review the sessions, please check it out!

Our LWVCO Board of Directors continues to work on our plans for 2019/2020 and beyond. Thank you to our hardworking Board who is helping to envision the future. It's a great team! We are committed to focusing on our important policy issues: Amendment CC, TABOR reform, Redistricting, National Popular Vote, Campaign Finance and Voting Methods. We must work on all aspects of Voter Education and Registration, Get Out the Vote and our national VOTE 411 website. We will educate on and champion the Census! We will support our 18 local Leagues across the state in their goals. Check out the websites and social media sites across the state.

We need your dollars to continue our vision. Consider donating to the League of Women Voters of Colorado. Invest in our important nonpartisan mission! Just hit the donate button on our website.

Please feel free to contact our League office if you have a question. Our staff would be happy to help: info@lwvcolorado.org.

Making Our Democracy Work!
Ruth Stemler, President
League of Women Voters of Colorado
