

Initiative 271, Policy Changes Pertaining to State Income Taxes: A Petition Drive for the 2020 Ballot

Initiative 271, Policy Changes Pertaining to State Income Taxes, is a response to the financial log jam created by TABOR, the tax and spend limitation section of the Colorado Constitution. Because Colorado's tax code is in the state constitution, any change must go to voters in the form of a ballot measure.

Basically, Initiative 271 establishes a graduated income tax (not a flat tax, as we have now) that reduces taxes for many yet is structured to bring in more revenue for state services. The proposed graduated income tax would reduce the tax rate for incomes below \$250,000 for all Colorado income taxpayers. This would give a tax cut to 95% of Coloradans, meaning that all Coloradans earning less than \$250,000 a year will pay a lower income tax rate.

Three new tax brackets would be created that increase tax rates on marginal income above \$250,000. Analysis project this graduated tax will generate approximately \$2 billion in additional revenue for the state.

Income Bracket	Proposed Marginal Rate	Current Marginal Rate	Difference in Percentage Points
Below \$250,000	4.58%	4.63%	-0.05 pp
\$250,000 to \$500,000	7.00%	4.63%	2.37 pp
\$500,000 to \$1,000,000	7.75%	4.63%	3.12 pp
\$1,000,000+	8.9%	4.63%	4.27 pp
Possible Revenue Generated	\$2 billion		

Half of the additional revenue will go toward increasing pay for teachers and student support staff.

The League of Women Voters of Colorado supports Initiative 271 and will take an active part in the petition drive and campaign.

- Colorado's tax code hasn't changed since 1992; Colorado is missing out on important opportunities to invest in its communities and drive success for all.
- The current flat tax is unfair with those in lower income brackets generally paying a higher percentage of their income in taxes than those in higher income brackets.
- Both LWVCO and LWVUS have positions that support the proposal.
 - Adequate funding/resources

- Flexibility
- Equitable tax system
- Progressive
- Incorporates social, environmental, and economic goals
- Furthers League program goals
- This is a continuation of our over 30 years of opposition to TABOR and its detrimental effects on the state of Colorado.

The League has partnered with Vision 2020, a network of people and organizations across the state who are working together to come up with commonsense solutions to solve the challenge of how we build up and improve our communities. By untying the state's fiscal knot, we can reshape our upside-down tax code that is currently tilted towards the wealthy and powerful. Vision 2020 is the main coalition that has brought many other organizations together to develop a ballot proposal for 2020.

Vision 2020 is developing a website, Fair Tax Colorado, which will contain information and campaign materials. It has a weekly webinar for anyone interested in learning more and getting updates on the network activities every Friday at 11:30 am.

The Bell Policy Center has Fair Tax information as well.
